

## PowerPoint Race

You will use PowerPoint to create an animated “race”. You could have different characters race through different scenes or you could tell a story with your characters. Your race/story should include:

1. at least 3 “characters”
2. multiple scenes
3. automatic entrance, exit, and motion path animations
4. automatic slide transitions
5. effective use of send to back / backward and bring to front / forward arrangement of images
6. animated WordArt
