Each page needs:

- title
- details
- pictures with custom animation (use Google images or ClipArt)

Hints:

- save file frequently
- keep it simple at first
- Google images
 - find image, click image, enlarge to full size, right click, save picture as, save with meaningful name in your powerpoint folder
 - Insert tab > Picture icon
- Custom Animation
 - Animation tab > Custom Animation icon
 - select object to animate
 - click Add Effect
 - choose entrance or exit
 - pick an effect
 - choose *on click, with previous, or after previous*
 - click drop down arrow to change timing
- Experiment a little
 - try animating text and images
 - check out Slide Transitions
 - Insert WordArt

If you think you're done, you're wrong. Go back and add more slides or choose another topic and create a new presentation.
